ONTARIO NEEDS www.OneSchoolSystem.org

Education Equality in Ontario is a non-governmental **human rights organization** and **education advocacy group** seeking the merger of the province's public and separate school systems into one English language and one French language public school system. Our objectives in seeking such a merger are:

1. to eliminate religious discrimination in admissions and employment in publicly-funded schools, and
2. to ensure better stewardship of the financial resources committed to the education of our children.

We are *open* (neither endorsing nor opposing) to the provision of academic (non-sectarian) religious instruction in the public school system, as long as any such instruction promotes mutual respect and understanding by encompassing the richness and diversity of all faiths while favouring none in particular.

Education Equality in Ontario has joined the One School System Network because we believe all of the organizations that support ending religious discrimination and wasteful duplication in Ontario's publicly funded school systems can work together effectively for change.
